

FOR MODELS READY TO BE TAKEN SERIOUSLY

Stop Losing Bookings to a Better-Looking Profile

Agencies and brands don't just judge your photos — they judge how you present them. A real portfolio site does the convincing before you even get on a call.

3 SECONDS

That's roughly how long a scout or brand manager spends before deciding whether you're worth a reply. A messy Instagram grid or a Google Drive link loses that decision before you've said a word.

Not fully happy with your preview? You can request changes within your plan's revision rounds — it doesn't go live until it looks right to you.

**Unlimited photos applies to your initial gallery build. New shoots added later follow your plan's revision rounds or the Premium quarterly refresh.*

WHY THIS ACTUALLY MATTERS FOR YOUR CAREER

You've already done the hard part — the shoots, the poses, the portfolio-worthy shots. Don't let a scattered Instagram grid undersell all of that work. Agencies and brand teams check your site before they book you. A dedicated portfolio signals you're already operating at a professional level — before anyone's even messaged you back.

WHAT CHANGES ONCE YOU HAVE THIS

BEFORE	AFTER
Sending a Google Drive folder and hoping they open it	Sending one clean link that looks like you already have representation
Getting lost in a sea of look-alike Instagram profiles	A site built around your face, your work, your story
Explaining your measurements and rates over chat, every time	A polished comp card that speaks for you, instantly
Hoping a scout scrolls far enough to notice you	Being the profile that looks ready to book, immediately

HOW IT WORKS

- 1 Send your details**
Photos, bio, measurements & social links — over WhatsApp or email, whatever's easiest.
- 2 Pick a package**
Starter, Professional, or Premium — whichever matches where you're at right now.

3

Review your preview

You get a private preview link before anything goes live. Request tweaks within your included revision rounds.

4

Go live

Site goes live on your custom link (or your own domain) in 5–7 days.

FAQ

Do I need my own domain name?

No — every package ships on a free subdomain. Professional and Premium include setup on your own domain if you buy one (domain cost is separate, ~Rs. 700–1,200/year).

What if I want changes after it's live?

Starter includes 1 round of revisions, Professional 2 rounds, and Premium includes ongoing priority edits as part of the AMC.

Can I upgrade later?

Yes — you can move from Starter to Professional or Premium anytime; you only pay the difference.

How do I send payment?

UPI, once you've confirmed your package and sent your content.

Every week without this is a week agencies scroll past you.
